Technical Skills .

Frontend: HTML, CSS, JavaScript/TypeScript, React, NextJS, React Native, TailwindCSS, Framer Motion .

Backend: NodeJS, ExpressJS, RESTful APIs .

State Management: Redux, Context Api

Database: MongoDB, PostgreSQL .

Version Control: Git, GitHub .

Tools & Platforms: Visual Studio Code, Postman , Swagger.

Others: Responsive Web Design, API Integration

Experience

Full-Stack Developer

Innovative Techno Consultant Pvt. Ltd., Gyaneshwor, Kathmandu

May 2024 - Sept 2025

- Built scalable web apps using **Next.js** (SSR & SSG).
- Developed and integrated **RESTful APIs** with frontend & third-party services.
- Documented backend APIs using **Swagger (OpenAPI)**.
- Worked with **MongoDB (Prisma ORM)** for data modeling & validation.
- Implemented **JWT authentication & RBAC**.

React Native Developer – Janani MCHMS App

CitizenInfotech, Mid Baneshwor, Kathmandu

November 2025 - ongoing

- Developed a maternal & child health tracking mobile app using **React Native**.
- Integrated backend APIs and implemented secure authentication.

Added AI-powered chat assistance for user support.

Projects

1. MeroChart

Description: **MeroChart** is a comprehensive share market web application developed using **Next.js** for both frontend and backend. The platform offers detailed insights into the Nepalese share market, including company data, market trends, and more. Access to premium data is gated through a **subscription-based** system. The site is fully **responsive**, designed with **Tailwind CSS**, and utilizes **shadcn/ui** for elegant and accessible form components.

Key Features:

- Subscription system for accessing premium content.
- Clean and responsive UI with modern UX practices.
- Built-in API routes to handle form submissions and secure data delivery.

Technologies Used: Next Js, MongoDB, Prisma

GitHub: <https://github.com/InnovativeTechC/portfolio-screening-v2>

Preview: merocharts.com

2. Janani App

Description: Developed a mobile application to assist healthcare providers and mothers in tracking maternal and child health. The app enables monitoring of prenatal and postnatal care, immunization schedules, health records, and personalized reminders for appointments, improving accessibility and efficiency in maternal and child healthcare services..

Key Achievements: -

- Tracked maternal and child health with automated reminders and AI-powered chat support.
- Designed an intuitive UI for healthcare workers and mothers.

- Ensured secure data storage and offline access for rural areas.

Technologies Used: React Native Expo, SQLite

GitHub: <https://github.com/Rojan-CTZ/mchms-native>

3.FCHV

Description: The FCHV Mobile Application is built with React Native and includes secure login, offline support, and SQLite for local data storage. Users can work without an internet connection, and when they come online, the locally stored data is automatically synchronized with the server.

Technologies Used: React Native, SQLite

GitHub: <https://github.com/pranabkoirala/fchv-native>

4. Food Store Shop

Description: Engineered a full-stack web application for a food store using NextJS, offering a seamless user experience. Integrated Redux for state management and utilized REST APIs for efficient data handling. Employed MongoDB for robust data storage and retrieval.

Key Achievements: - Successfully implemented complex state management for a dynamic shopping cart. - Optimized application performance, reducing load times by 30%. - Deployed a fully functional MVP within a tight deadline.

Technologies Used: NextJS, Redux, MongoDB, REST APIs

Objective

Motivated and technically proficient MERN Stack Developer with hands-on experience in building responsive and dynamic web applications. Seeking an internship opportunity to leverage my skills in real-world projects and contribute effectively to a forward-thinking development team.

Education

Nepal College of Information Technology — Kathmandu, Nepal

Bachelor of Engineering in Software Engineering

Expected Graduation: September 2024 - Relevant Coursework: Web Development, Database Systems, Software Engineering, Algorithms.

Why I'm a Great Fit

As a driven and detail-oriented developer, I bring a strong foundation in MERN stack development, reinforced by practical project experience. My passion for coding and continuous learning, combined with a solid understanding of both frontend and backend technologies, ensures that I can quickly adapt and contribute to your team. I am eager to apply my knowledge, collaborate with seasoned professionals, and deliver high-quality code that drives business success.
