

BADRI TAMANG

Kathmandu, Nepal | +977 9844228622 | tamangbadrich@gmail.com

GitHub: github.com/tamangbadrich | LinkedIn: linkedin.com/in/tamangbadrich

PROFESSIONAL SUMMARY

Cybersecurity professional with 3+ years of experience in SOC operations, threat detection, incident response, vulnerability management, and AWS cloud security.

Certified in AWS Security Specialty, CompTIA Security+, and ISC2 CC with hands-on experience in SIEM, SOAR, EDR tools, automation, and security monitoring.

CERTIFICATIONS

- AWS Certified Security – Specialty
 - CompTIA Security+
 - Certified Ethical Hacker (CEH) – Double Trained *
 - AWS Certified Solution Architect Associate
 - Blue Teamers Apprenticeship from MSSP- Vairav Tech Pvt. Ltd
 - NDG Linux Essentials
 - Preparing for BTL1
-

TECHNICAL SKILLS

Security Operations: Wazuh, ELK Stack, Splunk, SIEM Monitoring, Incident Response, Threat Hunting

Cybersecurity: Vulnerability Assessment, Malware Analysis, OWASP Top 10, MITRE ATT&CK

Cloud Security: AWS IAM, Guard Duty, Detective, CloudTrail, S3 Security, Config, Compliance Auditing

Networking: Active Directory, VPNs, Fortinet Firewall, Network Traffic Analysis, Network Forensics

Programming: Python, Bash, Git

PROFESSIONAL EXPERIENCE

Cyber Security Researcher | Mindrisers Consortium Pvt. Ltd.

May 2025 – Present

- Deliver Cyber Security and Ethical Hacking training programs.
- Mentor interns in SOC operations, incident response, and vulnerability assessment.
- Research emerging threats and improve security training content.
- Assist in refining threat intelligence and SOAR workflows.
- Conducted vulnerability assessments using Nessus, OpenVAS, Acunetix, Nikto & other tools.
- Assisted with AWS security audits and IAM policy reviews.

SOC Apprenticeship | Leading MSSP: Vairav Tech Pvt Ltd

March 2025 – May 2025

- Monitored and triaged security alerts using SIEM in an MSSP environment.
- Investigated phishing, malware, and unauthorized access through log analysis.
- Performed L1 incident analysis and escalated validated security incidents.
- Analyzed Windows, Linux, firewall, and endpoint security logs for threats.
- Documented incidents and collaborated with senior analysts during investigations.

Cyber Security Intern | CodeRush Pvt. Ltd. : 2023

- Performed penetration testing and vulnerability assessments.
- Identified and documented 15+ security vulnerabilities.
- Assisted with threat intelligence reporting and log analysis.

IT Support Specialist | Ed-Mark Academy | Mercantile Office System | Global IME Bank

- Secured 500+ endpoints using Fortinet firewall policies and endpoint protection.
- Reduced system downtime by 30% through proactive monitoring and troubleshooting.

PROJECTS

SOC/SIEM Home Lab

Built a SIEM environment using Wazuh, Splunk and ELK Stack to detect simulated attacks, map alerts to MITRE ATT&CK, and automate alerting with Python.

Malware Analysis Lab

Analyzed ransomware samples in isolated environments using tools like IDA Pro, Ghidra, Ollydbg, Cutter, Chef, Yara Rules etc and documented Indicators of Compromise (IOCs) and mitigation strategies.

Incident Response & Forensics Labs

Used tools like FTK Imager, Autopsy, Wireshark, Volatility framework etc for conducting incident response, digital forensics and prepare well report.

CTFs & Labs

Tryhackme SOC L1, Let's defend, solved different Labs of Blue Team Labs(btlo), Cyberdefender portals for simulated Defensive Security scenario.

EDUCATION

Bachelor of Information Technology (BIT), Purbanchal University

TARGET ROLES

SOC Analyst | Cyber Security Analyst | Security Researcher | Cloud Security Analyst | Remote
