EXPERIENCE

Eagle Vision IT, Kathmandu — Full stack Software Engineer

January 2024 - PRESENT

- Developing scalable backend systems using Node.js (NestJS)
- Building REST APIs, RBAC, authentication, and modular architecture
- Optimizing MongoDB queries and improving API performance
- Integrating third-party APIs and business automation services
- Collaborating with React/Next.js/Flutter frontend teams

Palmind Technology, Kathmandu — Jr. Full stack MERN Developer

June 2023- December 2023

- Built REST APIs using Node.js and Express
- Integrated Google APIs and Meta messaging APIs (WhatsApp, Messenger, Viber)
- Implemented real-time chat using Socket.io
- Used Redis for caching and chatbot performance optimization

Naxa, Kathmandu — Front-end React Intern

March 2023 - May 2023

- Developed responsive UI using React, HTML, CSS
- Integrated frontend with backend APIs

CURRENTLY WORKING ON:

[Saasan Nepal \(Civic Engagement & Political Transparency Platform\)](#) — *Reactjs, Nodejs(Nestjs), MongoDB, Socket, Redis*

- Soon to be Nepal's biggest Open source Project
- Building a structured civic engagement system connecting citizens with verified politicians to raise issues, track responses, and ensure transparency
- Developing scalable role-based architecture and public data tools to enable accountability, survey insights, and data-driven governance in Nepal

SKILLS

Languages: JavaScript, TypeScript, Python, C, PHP, SQL, Go, Java, HTML, CSS

Backend Technologies: Node.js, NestJS, Express.js, MongoDB, Redis, REST API, Socket.io, JWT Authentication

Frontend Technologies: React.js, Next.js, React Native, Redux, TailwindCSS, Bootstrap, JQuery

Tools & Practices: Git, GitHub, npm, API Design, Modular Architecture, RBAC, Caching Strategies, SDLC, Problem Solving

EDUCATION

Tribhuvan University, Kathmandu — Bachelor's

2022-2025: Computer Applications
CGPA: 3.3

Prerana Science College, Chitwan — High School

2018-2020: Science(Bio)
CGPA: 3.13
