ABOUT ME

Full-Stack Developer specializing in Flutter, MERN stack, Next.js, and TanStack ecosystem, with 3 years of experience in mobile app development and 4 years in web development. Experienced in building scalable, high-performance applications across diverse industries with a strong focus on clean architecture, reusable components, and optimized user experience. Passionate mentor with experience training and guiding over 700 students in mobile and web development, helping them develop practical, industry-ready skills.

SKILLS

- **Programming Languages:** JavaScript, TypeScript, Dart, SQL
- **Frameworks and Libraries:** Flutter, React, Next.js, Node.js, Express.js, TanStack Start, TanStack Query, Redux, Riverpod, BLoc, Zod
- **State Management Architecture:** Riverpod, Redux, MVVM, Clean Architecture
- **Cloud Services:** Firebase, Google Cloud, Stream, SMS OTP Services
- **Databases:** MongoDB, Firebase Firestore, Hive, SQLite
- **Frontend Tools UI:** REST APIs, Google Maps API, Tailwind CSS, Flutter DevTools, React DevTools
- **Backend Tools:** Mongoose, JWT Authentication, Postman, Nodemon
- **Version Control:** Git, GitHub, Gitea
- **Payment Integrations:** eSewa, Khalti, PayPal
- **Testing Quality:** Unit Testing, API Testing (Postman), Debugging
- **Deployment DevOps:** Vercel, Netlify (if applicable), CI/CD
- **Soft Skills:** Instructional Design, Mentorship, Communication, Team Collaboration, Problem Solving

EDUCATION

Bachelor in Computer Application

Nepal Information Technology

WORK EXPERIENCE

Flutter and MERN Stack Instructor

Jan 2021 – 2026

Mindrisers Technologies, Kathmandu, Nepal

- Taught over 700 students in structured courses on Flutter and MERN stack development.
- Mentored students in developing scalable applications and adopting best coding practices.
- Conducted workshops on Flutter, React, Node.js, and MongoDB.

Flutter Developer

Jan 2021 – 2026

Mindrisers Technologies, Kathmandu, Nepal

- Built cross-platform mobile applications using Flutter for Android and iOS.
- Integrated advanced features such as live notifications, social logins, and personalized feeds.
- Optimized application performance using Riverpod and Stream state management.

MERN Stack Developer

Jan 2021 – 2026

Mindrisers Technologies, Kathmandu, Nepal

- Designed and developed dynamic web applications using the MERN stack.
- Built backend services with Node.js and Express.js using MongoDB.
- Developed responsive frontends with React and Redux.

Flutter Developer

Dec 2019 – Jan 2021

Info-Tech Systems Integrators, Charkhal, Kathmandu

- Utilized APIs to access photo sources such as Facebook, Google+, Instagram, and Flickr.
- Integrated REST web services using Google Volley and Google Maps V2.
- Designed customizable SDK architecture supporting image assets, colors, and photo sources.
- Built custom Gradle build flavors for modularity and scalability.
- Designed, deployed, debugged, and maintained Android applications.
- Created tablet-optimized interfaces for enhanced user experience.
- Tested applications across multiple devices and platforms.

PROJECTS

Mindrisers Web App Next.js, TypeScript, Node.js, Express.js, MongoDB, zod, shadcn, react-hook-form
Live Demo: <https://www.mindrisers.com.np>

- Developed a comprehensive educational management web application for students, instructors, and administrators.
- Built responsive and reusable UI components using React.js and TypeScript for an enhanced user experience.
- Implemented RESTful API integration and efficient state management using TanStack Query
- Developed backend services with Node.js and Express.js and managed data using MongoDB.
- clean coding practices to ensure scalability, maintainability, and performance.
- Collaborated with team members to deliver new features, bug fixes, and system improvements.

Lyndium — Web Developer / Frontend Developer

Live Demo: <https://lyndium.com.au>

- Contributed to the development of an AI-powered creative platform for generating and managing digital content.
- Built responsive and reusable UI components to improve user experience and accessibility.
- Implemented RESTful API integration and efficient state management using TanStack Query
- Worked on frontend feature enhancements and UI improvements for better performance and usability.
- Collaborated with the development team to implement new features and fix bugs efficiently.
- Followed clean code practices and maintained scalable component-based architecture.

SoftVista Creations Website

React.js, TypeScript, Tailwind CSS, Vite

Live Demo: <https://softvista-creations.vercel.app>

- Developed a modern business website showcasing software development, web solutions, and digital services.
- Built responsive and reusable UI components using React.js, TypeScript, and Tailwind CSS.
- Implemented modern UI/UX practices to deliver a fast, mobile-friendly, and engaging user experience.
- Optimized website performance, accessibility, and SEO for better visibility and user engagement.
- Deployed and maintained the application using modern CI/CD and hosting platforms.

Digital Palika Web App

React.js, TypeScript, REST API

Live Demo: <https://https://digitalpalika.org>

- Contributed to the development of a digital governance platform for managing municipal services and citizen interactions.
- Developed responsive frontend modules and integrated REST APIs for seamless data communication.
- Improved application usability, performance, and code quality through reusable component architecture.
- Followed best practices in software development, testing, and version control.

Digital Palika Mobile App

Flutter, Dart, Firebase, Riverpod, Stream

Live Demo: <https://play.google.com/store/apps/details?id=com.demo.digitalpalika.org&hl=en>

- Developed a municipal services application with payment gateways, geolocation, and notifications.
- Investigated budgets, secured sponsorships, and resolved bugs for smooth deployment.

Ratopati Mobile App

Flutter, Firebase, REST API

Live Demo: <https://play.google.com/store/search?q=ratopati&c=apps&hl=en>

- Built a responsive news application with personalized recommendations and live news feeds.
- Integrated Google, Facebook, and Apple authentication.

E-Commerce Website

React, Node.js, Redux, MongoDB

- Developed a secure e-commerce platform with shopping cart and product management features.

Pop Up

Flutter, REST API, Firebase, Hive, Riverpod

Live Demo: <https://play.google.com/store/apps/details?id=com.shortsn.newsApp&hl=en>

- Developed a mobile news application that delivers real-time news updates with a clean and user-friendly interface.
- Integrated REST APIs to fetch and display dynamic news content efficiently.
- Implemented local caching using Hive for offline support and improved performance.
- Followed clean architecture and SOLID principles to ensure scalable and maintainable code structure.
- Published the application on Google Play Store and managed deployment lifecycle.

Unicome App

Flutter, Hive, REST API, Esewa Payment Gateway

Live Demo: <https://play.google.com/store/apps/details?id=com.unicomenepal.unicome&hl=en>

- Built a mobile application using Hive local storage and Esewa payment integration.
- Followed SOLID principles to ensure maintainable and scalable development.
